

## INTERREG IMPROVEMENT

### Virtual Steering Committee Meeting (WP.T1)

On-line, 16/07/2021

#### Agenda 16th July 2021, Microsoft Teams meeting (COVID-19) 9.30-11.30

- Communication WPT2 Status (Coordinated by AAE)
- Associated beneficiaries and its engagement in the project
- Deliverable approval. The following deliverables must be approved by the SC before sending them to Sudoe Secretariat with the next Project Reporting:
  - 2.1.1. Report on IMPROVEMENT Power Control System technical requirement specification ([link](#))
  - 4.1.1. Forecast algorithms for renewable generation, electricity prices and load consumption ([link](#))
  - 3.1.1. Technology Prospective Analysis for Thermal Energy Storage System for cooling and heating applications ([link](#))
  - 2.2.1. Report on the developed AMI platform to assess power quality with ESS ([link](#))
  - 2.4.1. Three phase power inverter with active neutral control ([link](#))
  - 4.2.1 Report on Advanced Energy Management System for Renewable Energy based Microgrid with combined generation of cool, heat and electrical power and multiple Energy Storage Systems ([link](#))
- Exploitation of the results
- Financial status and next reporting calendar
- Open speaking turn
