WHY EHEC 2022?

In the path towards **climate neutrality by 2050**, many technologies will need to step up to decrease CO₂ emissions. Amongst them stands **hydrogen**.

Spain has committed to European guidelines with ambitious objectives on its **Spanish Hydrogen Roadmap** (October 2020) allocating **1.5B€ to green hydrogen projects** until 2023 through the **Recovery, Transformation and Resilience Spanish Plan & 16.300M€** through the **PERTE ERHA**.

The **European Hydrogen Strategy** (July 2020) considers the development and implementation of sustainable solutions based on hydrogen **crucial** for climate-neutrality goals in Europe.

This edition of the **EHEC** is set at a **key time** for the **fast-growing clean hydrogen industry worldwide**. It will bring the latest breakthroughs in the research and business sector to a worldwide audience, showcasing cutting-edge hydrogen and fuel cell science a technology.

4 plenary sessions

Multiple parallel sessions

Poster presentations

Side events

Trade Fair

Networking area

Europe's Conference of reference in the field of **hydrogen** **energy**

Identified in the Spanish Hydrogen Roadmap, by the Government of Spain, as one of the measures to position Spain as a benchmark for these technologies

- **Reengaging** with your peers and **exchanging** on the ever-evolving hydrogen scene
- **Disseminating** and **promoting** a generalized use of hydrogen technologies.
- Bringing the **latest breakthroughs** in hydrogen research and business to the public eye.
- Presenting cutting-edge hydrogen and fuel cell **science and technology**.
- Fostering the **exchange of scientific knowledge** and facilitating **networking**.

+ 200 SPEAKERS

+450 DELEGATES

+ 40 COUNTRIES

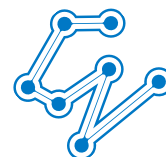

Thought-provoking Plenary Sessions

Renewable Energies & Green Hydrogen

**Towards the hydrogen
economy. Where we are.
What we need**

Hydrogen Mobility

**Hydrogen strategies
around the world**

And multiple **parallel sessions** with
communications on 20 + topics along the
whole hydrogen value chain!

**Would you like to
be a sponsor?**

Sponsoring at EHEC 2022 is a prime
opportunity to showcase your
products and services to key industry
players and decision-makers in the
FC&H2 sector

EHEC 2022 organized by Spanish Hydrogen Association

Mission

Promote and foster hydrogen technologies development and deployment in Spain, with the objective of building a favorable environment to strengthen and put into value the national and international industry.

Vision

Hydrogen plays an essential role in energy transition, offering great opportunities for economic growth and environmental benefits. As an energy vector, it is crucial to achieve the decarbonisation of the Spanish economy, and the aim of net-zero emissions by 2050. Hydrogen will reactivate, redefine and transform the national economy, building a strong technological and productive network and thus creating highly qualified jobs.

Advantages of being an Sponsor & exhibitor

- ⑥ A unique forum for presenting your entity and showcasing your latest projects, know-how, and breakthroughs in hydrogen technologies.
- ⑥ Networking opportunities to create meaningful connections, foster business opportunities, and potential collaborations.
- ⑥ Join the most important companies, decision-makers, and leading experts in the hydrogen field.
- ⑥ Position your entity as a leading actor in the hydrogen economy.
- ⑥ Place your logo in the Conference programme, brochures, website and all printed materials.
- ⑥ Customized sponsorship opportunities and use of the EHEC's name and logo for your advertising and media position.
- ⑥ An exceptional experience in the heart of Madrid, in a magical setting, to get together with leading stakeholders of the hydrogen energy system.
